ABOUT US

Green Fit is a brand of TNTY specializing in providing the most professional outdoor fitness equipment. Leading experts design our products in Sweden.

We are the leading provider of outdoor fitness equipment to public and private parks, outdoor gyms, sports facilities, schools, and hospitals. As the industry leader, GREEN FIT has provided equipment to thousands of exercise, sporting, and fitness area installations around Vietnam and throughout the world.

Every day, millions of exercisers benefit from using Green Fit exercise equipment, from elite athletes to those just starting a workout routine.

We bring the value and sporty spirit in each product.

OUR MISSION

Our mission is to provide solutions that get the world moving and help people lead active and healthy lives.

The best way to know everything we can about our fitness products is to use them every day. Helping people live healthy lives is what we do.

OUR PHILOSOPHY

At GREEN FIT, we believe in striving to achieve impossible goals. We believe that helping people move and move more of their bodies contributes to a healthy, active, and vibrant future generation.

Green Fit brings a healthy community!

IDEAL OUTDOOR FITNESS SPACES

A healthy community needs a healthy heart. That heart can symbolize the mental and physical health of each person. It is also a place to help people exchange, meet, and exercise. It is where strangers become playmates and playmates become friends. It is where adults start conversations that become life-long bonds. It is where neighborhoods are defined and cities established.

Therefore, Green Fit will always strive to bring the ideal training space to bring people together, where all beliefs, cultures, or ages are no longer the limits.

A HEALTHY LIVING SPACE

The outdoor fitness space is a place where tired, stress, and unease should melt away in an atmosphere of local pride, trust, and love. It is where everybody puts down their phone to engage in physical activities and lead a healthier life.

At GREEN FIT, we value fitness equipment that is functional and designed to suit all audiences. Whether a child can safely practice a mono bar, an older person can easily use the treadmill most comfortably. We believe that sports space must be a place that brings happiness to the community.

ACCESS IS FOR ALL

The fitness spaces should be the center of a broad community. It does not belong to anyone or any individual or organization, so there is no isolation or discrimination. Everyone is equal and has the right to participate in exercise to improve health.

That is GREEN FIT's vision to build a happy, physically and mentally healthy community.

WHY CHOOSE GREEN FIT?

Customers

Green Fit is always here for the customer - today and the future. We will continuously strive for customers because you are the driving force to help us grow.

Quality

Green Fit is proud of high-qualified products and services, ensuring customer satisfaction.

Integrity

We are always heading to the right things to follow our mission.

HERE'S WHAT MAKES OUR EQUIPMENT SPECIAL?

Super Design

Functional goes hand-in-hand with beautiful. It inspires the practitioner every day.

Scientific Research

With our scientific knowledge, we exploit every aspect of our products to deliver the results you aim at it.

Innovative Equipment

We are always researching the best solutions to increase the efficiency of sports equipment.

THE BEST SOLUTION

OUTSTANDING PERFORMANCE ON ALL PARAMETERS

The highest standards

ISO 9001 certification approves the highest level of quality. We follow internal safety routines according to EN1176 (EU), ASTM (North America), supervised by acknowledged safety institutes. All Green Fit standard products are TÜV-certified. Critical parts are made of highly reliable steel and massive structures equipped with safety features providing double and triple safety.

The most innovative

Innovation is one of the fundamental drivers of everything at GREEN FIT. It's a never-ending process, driven by close collaboration with customers and experts, using technological development to improve our product.

Most beautiful and timeless fitness designs

Besides functional outdoor fitness equipment, GREEN FIT always focuses on product design to attract and inspire enthusiasm to exercise for users. Our top experts from Sweden have delivered the best experiences and design durable products over the years.

Highest quality materials

Our product stands for the wear and tear of weather and heavy usage. It looks great for decades to come and requires little to take care of, and users get as many hours of joy as possible. Therefore, we use the highest quality materials that look inviting for decades to come and require a minor maintenance amount.

Green and safe

The environment and safety go hand-in-hand on a GREEN FIT facility, one feature frequently complimenting the other. From raw materials to the final product, the ability to generate from recycled resources and then not leave a negative footprint is primary. It makes the fitness experience exciting.

The greatest experience

It is our mission to develop happier and healthier communities. So Green Fit products are to stimulate everybody's physical, social, cognitive, and creative skills. Physical challenges improve health, increase physical activity, motor skills, build muscle strength and durability.

OUR WARRANTY

01

Warranty coverage

This warranty applies to GREEN FIT's products for the periods described for each product type above and with the limitations described in this warranty. The warranty period applies from the date of purchase by the first customer.

This warranty covers only defects in materials. GREEN FIT's liability under this warranty is limited to repair or replacement of defective products, without charge, at GREEN FIT's discretion.

02

Proper installation and maintenance

The warranty only applies if GREEN FIT's products have been installed according to the instructions provided by GREEN FIT and maintained correctly according to the GREEN FIT Maintenance Manual.

Warranty exclusions

- The product has an expired warranty or no warranty card.
- Unilaterally disassemble, change product structure, replace or repair by any other third party.
- Cosmetic damage, including but not limited to scratches, chips, dents, cracks.
- Damage caused by accident, intentional, overuse, misuse, and instructions of the product.
- Damage is caused by arbitrarily using or installing third-party components or products that do not meet the specifications of products supplied or installed under the contract.
- Damage caused by poor storage conditions, fire, natural disaster, earthquake, and other unusual external power sources.
- Errors due to normal wear and tear or normal aging of the product.
- Parts consumed for damage due to failure to follow published instructions.

03

04

Near water installations

Products installed in direct contact with chlorinated water or salt water or products installed with occasional contact with such water or installed so close to the shore they are subjected to salt spray are not covered by the GREEN FIT warranty for any defects caused by corrosion.

The warranty will only cover standard products installed in coastal areas within 200 meters from the shore for half the period of the standard product warranty concerning defects caused by corrosion. If applicable, GREEN FIT's warranty is limited to a half-time warranty concerning such products.

GREEN FIT GOTHENBURG

Green Fit Gothenburg is our unique and convenient range of products with two devices with the same functionality in one product set. Gothenburg will bring satisfaction and a great experience when your family and companion always practice together.

Gothenburg focuses on stretching muscles by combining aerial walking exercises, hip rotation, chest tension to burn calories in a maximum way. Besides, stretching exercises are a great way to help blood circulation, oxygen, and nutrients that bring more muscle bundles, more muscle flexibility, flexible joints, and less straight tension.

Our Gothenburg outdoor fitness equipment collection, designed by top experts in Sweden, will make the most of the difference and impress.

GREEN FIT-1000

Function: Push Chair
Size(mm): 700 x 1900 x 2000

Press Trainer
Size(mm): 2281 x 2589 x 2648
Material: Hot galavernized pipe,
Roof is steel plate

It is a combination of leg muscles training on one device. The unique design with a conical-conical roof makes it fun to exercise. The design of the products allows for two people to work out together.

The product is made from hot galvanized pipe material, coated with high-quality powder coating. The roof is a steel plate. Therefore, Green Fit's device has good rust resistance, high durability, and excellent outdoor weather conditions.
